It's too bad that local news stations on AM/FM radio are unable to provide their audiences with traffic and weather 24 hours a day, 7 days a week. It's unfortunate that here in LA, when it's baseball season, (and before I had XM), I had to listen to the Dodger game instead of listening to traffic that would impact my drive into work. Now, I don't have that worry. Congress needs to spend more time taking our troops out of Iraq than whether or not XM radio should be limited to it's paying customers.
